Message: I am writing to oppose the acquisition of the CN railroad. I am particularly concerned with 3 things: 1) our 3 young boys will have to cross the tracks daily to get to and from school- the disaster in fox river grove where a train crashed into a school bus and killed 7 young children is still fresh in our minds. 2) our ability to get to and from a hospital will be complicated 3) our quality of life will be negatively impacted because a typical train will block all of the major routes into and out of town which we frequently visit/shop/play/work.
