Mr. Dave Navecky
Surface Transportation Board
AnN: Environmental Filing
Docket No. FD 35852
395 E Street, SW
Washington, D.C. 20423-0001

Subject: Port Canaveral Rail Extension

Dear Mr. Navecky:

Once again it seems that those in authority give more credence to making money than the preservation of wild life. If this rail extension goes through, not only will the Indian River Lagoon be affected, but the wild life in the Merritt Island Wildlife Refuge. Where will they go??

Coming second to the above are property values in nearby communities, as well as noise and pollution. We have been told that there will be 3-4 trains per week going at 10mph. First of all those trains have to go back, so that makes 6-8 trains per week. Once they are given authority, what is to stop them jumping to numerous trains per week, at whatever mph they choose?

Please Mr. Navecky, think about the quality of life in general and just for once forget about the money the Port can generate.

Yours sincerely,

Margaret Gates
