

080217 Silk

Hi, my name is Lisa Silk. I'm at 544 Saratoga Drive in Aurora, 60502 and I just wanted to leave a comment on how I am against the railroad; the Canadian purchasing the railroad for many reasons. It causing obviously a lot more traffic issues in our area. If they had to build a bridge and the taxes that would cause; obviously a raise in our taxes in this area and also a safety issue. We have obviously a heavy population of students in this area and the buses that would need to go over the railroad crossings constantly. It is definitely a safety issue for our children and I am completely against them purchasing that and having that amount of trains going through there. If you have any questions, you are welcome to send any notifications to my home or call me at 630-820-0265. Thank you.
