

Docket #FD35952 GLBT Railroad

John Nelson to: david.navecky@stb.dot.gov

06/10/2016 03:47 PM

I want to go on record as being in extreme opposition to docket #FD35952, which involves a 200 foot right of way for a proposed railroad. This will alter our day to day lives, negatively, in many ways. I live approximately 1 1/4 miles from this proposed rail line, in Johnstown township Wisconsin. One of my main concerns is with up to 110 trains per track daily, and each train being up to 100 cars long, going up to 70 mph, and the possibility (almost certainty) of trains hauling toxic, or flammable, and possibly explosive cargo and derailling, is unacceptable! Also dead-ending most of our township crossroads is unacceptable, as is the issue of noise.

I would ask this board, & any other regulatory committee to refuse Great Lakes Basin transportation's proposal for this rail line. Please consider my request.

THIS RAIL LINE WOULD TURN OUR LIVES UPSIDEDOWN!

Thank you,
John C Nelson
