Please don't allow the purchase of the L&N railroad by CN

My front yard is only fifty ft. from the tracks and less than two hundred ft. from a crossing. The eight to ten trains we now have are enough. The twenty-eight projected will impact my quality of life and as I'm retired in some part of the time. I also think we have sold too much of our country to foreigners already. Thank you for your consideration

J. P. Slattery
