I am calling regarding CN's proposed acquisition of the railway that runs through Barrington. I am calling to say that I think that this will be a negative for our community. That railway crosses our main street. This is a small town and we want to keep it that way. We don't want to have a major rail system running freight trains across our main street, impacting our traffic patterns, impacting our access to our downtown area on a daily basis. There is also a school in that area. The high school students regularly walk home from school and they have to cross those tracks. I believe that in this circumstance, our leaders in Congress and the House of Representatives need to be aware of the negative impacts that approving this deal or the STB approving his deal would have on our community and really need to take into consideration that this area belongs to its citizens and not to a Canadian Railroad. Thank you very much. I don't know if you want the phone number too, but my Phone No. is 847-277-0062.
