From: "Doralyn Kirkland" <Doralyn.Kirkland@dnr.state.ga.us>
To: "Troy Brady" <pseudocajun@msn.com>
Cc: <Troy.Brady@stb.dot.gov>

History: This message has been replied to.

Because Atlanta BeltLine Inc. voluntarily assumed the responsibility for assessing this property under the Georgia Brownfields Program, GA DOT did not have to do so before abandoning it.

This parcel of the Beltline, from Washington Park to Allen Street is currently under the BeltLine Corrective Action Plan, which was amended on May 18, 2010 to add it. ABI used funds from Atlanta's 2009 Brownfields Assessment Grant to conduct site assessment at the Southwest Corridor (Washington Park to I-20). They also applied for a FY2013 EPA assessment grant to investigate the remainder of the property (I-20 to Allene Street). Any environmental issues (if found) will be remediated under the Brownfields Program (in consultation with UST if tank issues arise.)

If you need further details, please contact: Madeleine Kellam; Brownfields Coordinator; Georgia Environmental Protection Division; Phone 404/656-7802

Thank you,
Doralyn Kirkland

Hi Mrs. Kirkland,
I am also sending this email from my personal email as the gov't email server can be slow at times.

please see that attached link to view the EA that was prepared
4/20/2012:
