Dear Ms. Johnson-Ball.

I feel I need to express myself
to you regarding the CN Railroad purchase
of the ESt1 Newline in suburban Chicago.

Trains already block 3 major roads in
Barrington and affects our lifestyle, safety
and the environment in the area.

This purchase would increase all risks
for safety and also gridlock the entire
area of Barrington and all the commuters

who pass thru on its roads.
Why should we allow a foreign owned
railroad to destroy beautiful
communities here in Illinois?

Please vote against this proposed
take over.

Thank you. Jeff Brown
