Ms. Gosselin:

I apologize for not replying. Your email was addressed to a "Mr. Kelly" and not John Kudley. It was therefore inadvertently overlooked. Please be advised that the Historical Society does not have its own approved historic signage standards but follows those established by the City of Aurora's Landmark Commission. The Historical Society did have input into those standards.

J. Kudley

Mr. Kelly,

We have been trying to reach you regarding any approved historic signage standards the Aurora Historical Society may have in connection with the Section 106 review for the Aurora rail line abandonment (please see below). If you wouldn't mind giving me a call or emailing me your reply, I would really appreciate it.

Thanks very much,
 Danielle

Subject: AB-290 (Sub-No. 394X) Aurora Abandonment

Good afternoon,

I am counsel for Norfolk Southern Railroad Company in AB-290 (Sub-No. 394X) -

Aurora Abandonment, which as you know is pending before the Surface Transportation Board. I was writing to inquire as to whether the Aurora Historical Society has approved standards for historic signage? Could you please call me at (202) 663-7831 to discuss or provide the standards in a reply e-mail. Danielle Gosselin in the Board's Office of Environmental Analysis is cc'd in this e-mail.

Best,

Crystal
