Submission Text

Ken Blodgett Surface Transportation Board 395 E Street, S.W. Washington, DC 20423 ATTN: Office of Environmental Analysis, Docket No. 30186 Enclosed please find 58,927 individual public comments collected by CREDO Action for submission to the Tongue River Environmental Impact Statement review process. Individual comments may differ throughout, although the majority read as follows: "I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change." The comments have been split into 18 documents and 6 submissions in order to facilitate uploading to the Regulations.gov website. This is the fourth submission. Please contact me if you have any questions about the attached comment submissions. Sincerely, Josh Nelson Campaign Manager, CREDO Action jnelson@credoaction.com 415-369-2000

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Marie A. Washington

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Stephanie LaBelle LaBelle

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Angelika Braxton

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Todd Gukelberger

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Mary More

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Kristina Ackermann

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Grace Collins

395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Edward Butler
36 E 69th St

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Eric Debolt

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Nancy W Cole

Surface Transportation Board
395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Mark Galbraith

Surface Transportation Board
395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Carmela Sudano
1269 Vinegate Dr 8

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Shanna Rose

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Frank Pastula Jr

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Erasmo Joseph Joseph

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Sheree Butsch

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

Marcus Lanskey

ATTN: Office of Environmental Analysis Docket No. 30186

This takes the cake!! Does someone not read any of the environmental news? Does climate change, destruction of many species (and eventually humans) mean nothing? For heaven"s sake, for everyone's sake, start doing the right thing with renewable, especially sun and wind energy. Please, keep carbon in the ground. I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change. If the administration insists, maybe it could tax carbon, for example, at $1000 on the ton of coal, before it is exported. Then use that revenue to fund all the lung illnesses and severe storm destruction expenses.

Surface Transportation Board
395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Chris Oakley

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Frank Wood

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Josephine Gold

395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Heidi Bitsui

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Barbara Darnell

We need to stop the increase of CO2 into the atmosphere. I live in a county where Phillips 66 is attempting to build a oil train terminal so it can import tar sand crude and refine it for export to Asia. We get all the risks, Phillips makes billions. We want safety, healthy economy, clean environment. We are in soldarity with you and support your efforts to protect communities, the earth, and the atmosphere. Our coalition opposes construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change. As a resident of the Pacific Northwest, I don't want coal trains coming through our local communities, causing traffic and pollution hazards. But what really is much more important is the effect this railroad will have, indirectly, on greenhouse emissions globally. Climate change is THE big issue for anyone alive today, and any project that will contribute significantly to global climate change needs to be stopped, permanently. If the administration is serious about dealing with climate change (as it has sounded at times, including recently with its power plant emission rules), then it cannot simultaneously approve or facilitate projects which would offset the gains from its other climate change initiatives.

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Thomas Brown

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

Shirley Blaylock

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Alan Dean Liechty

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Abby Hicks

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Jim Snee

Ken Blodgett
Surface Transportation Board
395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Dr M Wayne Wilson

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change. AT THIS POINT THE ONLY THING THE WORLD SHOULD BE DOING WITH FOSSIL FUELS IS ENDING THEIR USE! FOSSIL FUELS = DEATH!!

Sincerely,

Paul J. Palla

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Joyce Jaske

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Mary M. Mason

Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the ‘no action alternative.’ The Tongue River Railroad’s transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration’s efforts to address climate change.

Sincerely,

Michael Lombardi

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Sandy Hall

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Betsy Maestro

Ken Blodgett
Surface Transportation Board
395 E Street, S.W.
Washington, DC 20423

ATTN: Office of Environmental Analysis Docket No. 30186

I oppose construction of the Tongue River Railroad and urge the Surface Transportation Board to take the 'no action alternative.' The Tongue River Railroad's transport of coal would pollute and threaten the health of communities along its route, while significantly contributing to climate change. Allowing this project to move forward directly contradicts the administration's efforts to address climate change.

Sincerely,

Rita L Lemkuil
