Transcript:

Not all of us have fire addresses here that we give out. I do not want the Canadian National Railroad to acquire the EJ&E. It will destroy this community. We are one of a kind in DuPage County. There is no area like ours. We have environmental issues here that nobody else has that many people would want. We have beautiful properties, we have people who will be not able to get fire and police if this goes through, we have endangered species that live here. They will no longer be here if this goes through. I absolutely as a resident of Wayne Illinois do not want the Canadian National Railroad anywhere near this area.
