My comment is that we could certainly use the, the changes that the railroad is making now and it makes a lot of sense to route the trains around the outside area of the most busiest part of the county there and any of the objections to it, usually people are worried about the trains crossing their neighborhood, which is something we have lived with for the past 15 years here. So, it doesn't make sense to pass up this oppourtunity, so I'm all for it. Thank you
