Message:

I am writing this comment to voice my absolute and complete opposition to the CN Railway's application seeking approval to acquire the EJ & E West Company. As it stands now there are trains running through our backyards (blowing their horns when they're not supposed to be in the middle of the night) and clogging up our already congested roads on a daily basis. My husband and I would like this to be our voice opposing ANY increase in rail traffic through our neighborhood now or any time in the future.

Sincerely,
Patrick and Julie O'Connell
