Re: Finance Docket #34284
Vulcan Materials Co./Southwest Gulf Railroad

Dear Ms. Ghosh:

(Use those items which apply to you and put in your own words:)

- Moved to this area to have a peaceful retirement or to have country environment to raise a family
- Believe that this is the wrong place for this project. Vulcan/SGR should go somewhere less populated, with less harmful impacts
- Do not want the historical and archeological sites harmed
- Do not want flooding that would be caused by this railroad
- Want overpasses over the roads that the railroad crosses, and this should be required as part of the conditions of giving the permit.
- Fuel Storage and Maintenance area should be moved out of the Elm Creek floodplain, moved further south.
- Any other points you want to make.

Take a look at 1283 & 4714 in The San Antonio Express. Several people have been killed by trucks & railroads. Respectfully, or Sincerely, don't let this happen to Medina residents. Also, the fact we have so many west of San Antonio already.

We do not need a blood bath in Medina County. So stop this in its tracks.
