Subject: extension of comment period

Please consider extending the time for comment on the Tongue River Railroad draft Environmental Impact Statement. I do not have adequate computer access, never mind skills, to do this quickly, but I finally got a hard copy of the document. As you may understand, we need a good deal of time to plow through it and understand it and we really feel that the Board needs to have input from us in Western Montana. Since what happens in E.

MT also affects us in the long term--I live in rural MT and already seriously feel the threat of many more coal trains blocking my access to needed services--I am asking for more time to help the Board more fully understand the ramifications on the ground in Montana of building this railroad.

Sincerely,

Janet McMillan
