Transcript:

I'm opposed to the Canadian National purchase of the EJ&E Railroad for many reasons, but one of them is that we already have traffic that's already blocking up all of our roads and to have trains that are going to be doing more blocking, there's just no, no accommodation with the roads. The roads do not accommodate what we have already, let alone having the cars stacked up waiting for trains to pass. I hope that this, this is not a, this is a safety problem and there's just a lot of lot of people that are aging and needing to have clearance through those tracks for ambulances and police cars and hospitals and where all these tracks in New Lennox on the south side, they're always going to be a problem. Thank you
