Title	Business			Dept	
Address	706 Sanctuary Lane				
Address 2					
City	Joliet	State	IL	Zip	

Transcript:

My reason for objecting to the purchase by CN, is it'll increase, if you have anymore congestion now on our already overcrowded roads. Two, it's a safety issue. Emergency vehicles response times could be seriously affected, and number three, it's going to create a lot more noise pollution. Number four, it's gonna create a lot more of air pollution, and number five it's gonna inevitably effect the commute of our citizens throughout this entire area that will be affected by this rail line increase in traffic, to the fact that they will have difficulties in commuting to and from work, to and from school, etc, etc. I just think that it's a poor situation to allow those amount of train traffic increase with the lengths of trains that they are proposing that they would run through here. Thank you very much.
