My name is John Wise & my husband is John
Wise, Sr. & we are residents of Quarryville
PA. We became acquainted with the friends
of the Atglen Sesquehanna trail in 1989. We
had been walking parts of the midstate
trail and knew that eventually we would
have to find an easier place to walk.
The Atglen Sesquehanna trail was an
answer to our dreams. It also put us
in touch with the rich history of the
bridges & underpasses and these are
things we want to pass on to our children
& grandchildren.

We joined PA ST & contributed in any way
we could & were looking forward to helping to
clean up the trash left from neglect over the
years. We attended the meeting in Quarryville
last Wednesday night. We were impressed
by the speakers who support this project. It
confirmed our belief that those of us who
cherish the history of Penn Co & love to observe
nature in its natural habitat are in a
majority.

Whatever happens we hope that those who
take over will be persuaded that a trail
would be the best use of this land. Sincerely John Wise
