Finance District # 34797

Dear Sirs:

I am vehemently against having  
a "transfer trash station" at the Clin  
Chemical site on Ames St. in Wal-  
lington, Mass.

I live in North Woburn, a  
residential town, and no way  
should this type of business be lo-  
cated at the above site.

400 trucks and more a day  
would be a hazard on our street.  
Odors and pests we abhor.  
Noise from grinding would be  
unbearable. Our environment  
would suffer greatly.

Please do everything in your  
power to prevent this trash transfer  
station from being located at the  
Clin Chemical site in Walington, Mass.  
Thank you.
