The traffic in the Village of Barrington is already a mess. We've had freight traffic combined with commuter/freight on the Metra NW Line forever. It is really bad when the freights on the EJE come thru during rush hours.

If CN is allowed to run even more freight (frequency & length), our community will come to a standstill. The school buses are house by the crossing on Lake-Cook and they need to pass thru there regularly for all the community schools. The other issue is emergency vehicles (fire & police) we will be held hostage by the freight line.

This should not be allowed. It's unconscionable to disruption a small community on three major arterials all with one long freight line. Lake Cook Rd (main street), Hough Street, & Rte 14 near the Library.

MOVE the tracks outside the Village!
