Transcript:

Telephone number: 815/462-3717 I've been a resident of New Lenox for twelve years and I just wanted to put in my statement that we are very opposed to the STB finance docket # FD35087. We live relatively close to the railway and aside from just from the traffic and all and the trains the noises we are also very concerned about the things it will be carrying pollutant-wise for the children, our children we have lots of children in the neighborhood. So please consider a route or a different railway that would not go through a town with so many families. and so many children. Thank you.
