Subject: DEIS Comment Period

Dear Ms. Rutson,

Please extend the public comment period for the Tongue River Railroad DEIS. This long and complicated document deserves close public attention and the 60 day period is simply too short for adequate analysis.

I appreciate the efforts of the Surface Transportation Board in preparing this DEIS and am confident that the Board desires the best possible public comment to inform preparation of the Final EIS.

Please help us provide that input and extend the comment period.

With thanks for your consideration,

Lee H. Metzgar
