I recently purchased a home near the EJ&E railroad. Prior to purchasing I done all of my homework and learned that this set of tracks had very minimum traffic and really wasn't huge concern to the surrounding neighbors. I did learn that there were 3 individuals that lost their life on the track intersection that do not have gates and are near a park. One was my co-worker. I stand very firm in stating that no one in our community is in favor of the Canadian Railroad purchasing these tracks. The only one that would benefit from this is the Canandian Railroad. We would have more potential for human injury or death, a huge negative environmental impact, an increase of hazardous materials and it would impact the quality of our life living in this town. So please please do not allow this change in ownership to occur.
