**Subject: Payment from the CSXT Bricks and Mortar Fund
Hojack Railroad Swing Bridge Removal Project**

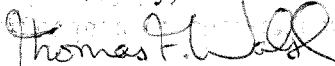

Dear Mr. Dierks:

Thank you for your communication of June 12, 2013 requesting a progress payment from the Bricks and Mortar Fund (Fund) established CSX Transportation, Inc. (CSXT) to mitigate the adverse impact of its demolition of the Hojack Railroad Swing Bridge. By way of review, in a letter dated January 24, 2013, NYSDEC and NY SHPO awarded the New York Museum of Transportation (NYMT) from the Bricks and Mortar Fund \$4,937.00 in funding for the creation of an interpretive exhibit for the components salvaged from the Control House of the Hojack Railroad Swing Bridge.

This letter is also to acknowledge receipt of \$295.29 in invoices from Home Depot and Lowes for materials to assist NYMT in developing a dry indoor space for, and creating an interpretive exhibit of, the components salvaged from the Bridge. To date, the NYMT has not been paid anything from the Bricks and Mortar Fund, leaving the entire \$4,937.00 available for paying the current invoices for this project.

Enclosed please find a check from the Fund for \$295.29 made payable to the New York Museum of Transportation in payment for the invoices from Home Depot and Lowes. By my calculation, this leaves \$4,641.71 in the Fund for future invoices for your project. Once again, CSXT is pleased that the Fund will be aiding such a worthwhile project. Please feel free to contact me if you have any questions or concerns regarding the Fund.

Sincerely,

Thomas F. Walsh
