Message: I am contacting you regarding the potential takeover of the EJ&E by the CN railroad. As a resident of the affected area I am in favor of the merger. The amount of traffic this will generate in New Lenox is minimal (app. one train per hour). In addition until several years ago the EJ&E was double tracked through this area with little or no opposition and the affect on the community does not warrant the over reaction by the suburban communities involved. An additional loop line forty miles or more beyond the EJ&E should be considered also to avoid the Chicago congestion. Thank you.
