

Derail the Tongue River Railroad

Dear Ken Blodgett, Surface Transportation Board, Attention: Environmental filing,

I strongly oppose the construction of the Tongue River Railroad and increased coal-for-export traffic throughout Montana. This proposal would negatively affect my community by condemning private land for corporate profit, just to fuel competing Asian economies. It would take good farm and ranch land out of production, would make farms and ranches more difficult to operate, and would devalue property for 90 miles through the Tongue River Valley. It would also damage irreparably the Tongue River Valley's historical and cultural resources. I urge you to consider these impacts in the scope of the Environmental Impact Statement, to act upon the statewide opposition to this project, and to pursue the no-action alternative.

docket number: FD 30186

Thank you

I'm concerned that the Tongue River RR will
facilitate the industrialization of a
fertile agriculture valley for the develop-
ment of one industry only - coal.

Please study the impact of this RR on our fish hatchery
which spawns endangered species "pallid
sturgeon, effect on water quality of Tongue R,
fire danger, and contributions to Global
warming.
