

Mrs. Johnson-Ball

9-16-08

My husband and I are senior citizens who live on Foxwood Dr. in New Lenox Il. My husband has a heart condition.

In order for us to get to town, grocery store, bank, Dr. office and especially the "hospital" we have to cross very busy RR. tracks that are owned by the E J + E RR. School buses from our area also cross these tracks.

We are very much against the merger of the C N RR with the E J + E. RR.

Why should we have to put up with this and the increased risk because of hazardous material so that these trains don't run through Chicago, just because we are not a huge town. Our lives are important also!
