Title	Business			Dept	
Address	1730 Ariana Drive				
Address 2					
City	Bartlett	State	IL	Zip	60103

Transcript:

I am completely against the purchase of the EJ&E Railroad by CN. It is going to cause major problems, such as back-up for traffic for myself and others to get to school, including emergency vehicles. They just built a new fire station on West Butler Road that is set to open sometime in the next couple weeks, and with the railroad tracks being occupied by the train and the railroad crossings being down, obviously that would cause major back-up. I'm very concerned with the emergency medical vehicles not being able to get to our subdivision and in order to go around the train, I have been stopped before by the EJ&E train that has been left stalled by the tracks, it takes an extra 10 minutes to get around the train by going through other subdivisions. Again, I'm completely against it, as well as many of my neighbors.
