Transcript:

I would like to vote my opposition to the plan for the railroad to come in. It will cause great harm to me and my family as we live south of the railroad tracks and will have no access to any emergency facilities that are north of the tracks if a train comes through blocking Cedar Road or Spencer Road or Schoolhouse Road, which I am close to. I am also concerned about the amount of hazardous material that will come through and the risk to our schools that are near the tracks, of which my children attend. So I would please like you to voice my opposition and hope that this does not pass and cause more danger in our already danger-filled environments.
