Message: I agree with the majority of the residents of the Barrington area that the increase of trains through our town would have a huge detrimental impact on the area. I'm especially concerned about the travel time increases that would be experienced by our school children, especially at the high school. The travel times are already excessive to the 1 central high school that includes a catchment area of approx. 70 square miles. It is also highly concerning the delay that could be experienced by emergency vehicles in responding to responses, especially since the high school and the closet ER are on opposite sides fo the track.
