Hi Jeffrey,
I reviewed the letter.

By my read, it seems like the only thing that needs action at this point is to confirm that the POB address you had is still, in fact, correct (not sure why it was returned), that I'm the current President and contact for our organization, that this email address is correct, that 201-936-1150 (phone) is an alternative contact means, and that Harsimus Cove Association is indeed interested in remaining a consulting party.

Please let me know if there is more you require at this time.

Best regards,
Jeremy Jacobsen, President
Harsimus Cove Assoc.

Hi Jeffrey,
Thanks for reaching out. I believe that POB is still valid and active but I will stop by there today to verify and be back in touch.

I will also review the substance of the letter.

Best regards,
Jeremy Jacobsen, President
Harsimus Cove Association

Mr. Jacobsen,

I received your voicemail. Thank you for contacting me. I tried to mail a letter to you recently and I think I had an error in the address. I re-sent the letter yesterday. Hopefully you receive it, but I am attaching a copy here as well.

We are re-initiating consultation with various interested parties as we consider Conrail's proposed abandonment of the Harsimus Branch and the effects of this abandonment on historic properties. The attached letter provides more details. Please let me know if you have any questions.

Can you confirm the letter has the correct address for your organization?

Thanks,
