Transcript:

I am calling to strongly oppose the acquisition of the EJ&E lines by Canadian National. I am sure you are familiar with our little village of Wayne which is situated within a triangle of rail lines affected by this acquisition. This would make living in this village absolutely unbearable. It would also render my property valueless, so I strongly, strongly urge you to consider the impact on our villages and communities all the way through this loop that goes around Chicago. I don't believe that this will help the Chicago area lines, because I believe that even though they may take some of the train traffic off initially, most probably it will be added to on to later on. So we're just moving the problem--we're not fixing it. I strongly, strongly urge you to not allow this to happen. I appreciate your work and your help. Thank you. Bye Bye
