Transcript:

Basically, I support the sale to transfer the trains around the area rather than through as there is a lot of trains at all hours of the day and night and if I was considered reselling my house it would really take affect as there is three houses on the block that have been on the market for over a year (very nice houses) and I think they are still here because of the trains. I think it would be a good idea for the trains to go around the areas that are not heavily populated with home owners rather than through them.
