Hello Dave,

I had hoped to chat with you for a minute on the phone, calling today and leaving a message. If it is easier for you to email, please let me know?

I am concerned about the status of the Port Canaveral Freight Train (FD 35852), in light of the presentation that was given on September 23rd. Members of the community are unsure what to think and have asked that I contact you, rather than dozens or more of them.

My home phone is 321-453-0220 and my cell is 321-427-2363. I usually have better reception on the home phone.

Thank you for your patience and hard work. We all appreciate it.

Mary Hillberg
