Subject The Canadian National and the EJ&E Expansion

I am writing to inform you that I strongly oppose the expansion of the Canadian National railway. I live in the Cornerstone Lakes subdivision in West Chicago, IL and the expansion of the railway is a dangerous idea. It is not safe to have that much volume running on tracks located 500 feet from a school. The extra traffic will cause traffic backups in and out of the subdivision as well as the road leading to the school. In addition, it will cause cars to try to detour causing drivers who are trying to turn around or go through our subdivision, again bringing more traffic and less safety to our children. This is a bad idea for all communities that would be affected by the expansion. Please listen to the people this would affect and do not let this expansion occur.

Sincerely,
Sherri Clarke
