Mr. Blodgett,

After reviewing the available information about the proposed Great Lakes Basin (GLB) rail project, it is my opinion that the proposed GLB project has failed to sufficiently provide documentation that supports public convenience and necessity. For the following reasons I respectfully request that the STB cease any further action on this project.

This railroad will destroy precious and valuable farm land. It will also attract
unnecessary traffic and pollution to this area. Homeowners will leave and property values
will plummet!

The above provided information is what led me to the conclusion that the proposed GLB project is inconsistent with the public convenience and necessity. It was insufficiently vetted before starting the approval process. I respectfully request that the STB takes "no action" on this project.
