**080123 Gardner**

Laura Gardner. I reside in Naperville IL at 4603 Sunning dale Drive. My home number is 630-922-7202 and I'm just calling to voice concern. My daughter attends this elementary school which is right up on these railroad tracks and apparently there were some scoping meetings that were not made public. . . they may have been made public; we were not aware of them. Um, did not attend this obviously because we did not know the purpose of the meeting. It was never made very clear. So I guess we're a little concerned on the environmental impact, obviously, safety of our children and the risks involved in that. So we're wondering, you know, is it possible to have another public scoping meeting in Naperville and actually let residents know that this is happening at maybe one of the schools or something and what is the plan for the process. So that is what we are looking to find out. I've gone to your website. I'm actually the PTA President at Petersen Elementary School and I've had a lot of parents with concern since our school is literally 25 feet from a railroad track it seems like. So if you would like to call me again it's Laura Gardner 630-922-7202 or you can reach my at email [loragard@aol.com](mailto:loragard@aol.com) and we appreciate at least informing us of what's going on with this process. Thank you.
