Finance Docket No. 34797

May 10, 2006

Dear Phillis:

I am writing to express my opposition to the proposed Transrail project at the Olin Chemical Site in Wilmington, MA.

If this project is permitted, it will have a severely adverse impact on the residential areas nearby. Hundreds of trucks per day bringing noise, odor, and clogging the already busy roads in the area will negatively impact the quality of life for the affected neighborhoods.

These same residential areas have already had its share of environmental impacts - with landfills, Superfund sites, drinking water wells closed due to contaminated water. It is unfair and unjust to expect these neighborhoods to have additional adverse impacts from the proposed Transrail project. Please say NO:

Sincerely,

Margaret R. Bose
