Finance Docket No. 34747

Dear Ms. Johnson Ball:

Please do not set up a trash transfer station in Wilmington, MA. Our roads are over crowded and our town is already toxic. We have a high child leukemia level how sad. Toxic trash can't be a good thing to bring in a town that is trying to clean it self up.

In the 1990's we pulled 55 gal. drums up that were toxic material filled and buried off Salem St. The barrels were from Woburn back when they were dumping toxins.

No more traffic, trash toxins for our childrens sake. NO transfer station on the Olin

PLEASE HELP OUR TOWN!!!!!!!!!!!!!!!!!!!!!!

chemical site!

Sincerely,

Joseph Stephan Ripianzi
