Message: The citizens will suffer greatly with this plan unless you require bridges over these tracks. How would you like to leave your home and find your street blocked for many minutes to hours if the train stops? I advise the decision makers that go for meeting at IU go to Griffith and sit for a few trains and be late for the meeting to understand the impact on local residents. Trains are Hell when they move fast but when they stop or crawl at 2 mph even Dante could not describe. Please do not rubber stamp without reflection.
