Subject: Public Comment on DEIS for Tongue River Railroad

Dear Miss Rutson:

I write to request that the Surface Transportation Board allow an additional 120 days for the public to comment on the DEIS for the Tongue River Railroad. The DEIS is a large document with potentially enormous consequences for people in Montana and across the west. Given the size of the document, its complexity and the critical matters that it addresses, I believe it is unfair to allow only a limited 60-day public comment period. Please do not hesitate to contact me if you wish to discuss the importance of allowing additional time for public comment on this issue. Thank you for your consideration.
