ATTN: Docket # FD-35952

Date 4-26-17

Ken Blodgett
Surface Transportation Board
Docket # FD 35952
395 E Street SW
Washington, D.C. 20423-0001
Mr. Blodgett,

After reviewing the available information about the proposed Great Lakes Basin (GLB) rail project, it is my opinion that the proposed GLB project has failed to sufficiently provide documentation that supports public convenience and necessity. For the following reasons I respectfully request that the STB cease any further action on this project.

If we have a spill or disaster with the train our water will be
endanger and so will our near by towns. I don't think
GLB will deliver water to ALL of US. Close our roads so
we and others can't get to us in case of Fire or Heart attacks.
Crossing for us and farmers made are dangerous for all
that have to use it and he want's us to maintain it.
We didn't ask for it why do we need to maintain it. !?#! Around
here they call it the Bomb train. I'm very concern. House + Farms will
be a lost to the ones close to the train. They'll have no value no money to
buy another Home or business. It's A BAD IDEA!

The above provided information is what led me to the conclusion that the proposed GLB project is inconsistent with the public convenience and necessity. It was insufficiently vetted before starting the approval process. I respectfully request that the STB takes "no action" on this project.
