

IN RE TO DOCKET NO, 35952

They told me my letter could be long or short but unique.
At age 91 one doesn't have much in letter writing uniqueness.
So here goes.

I am against what the STB is proposing for the railroad in Rock County.

My family has been involved in the Emerald Grove Cemetery since it was organized. How sad it would be to have trains rolling by when there is a funeral or visitation at the cemetery.

I also belonged to the Emerald Grove Church for many years until I moved to Clinton, WI. The church has beautiful stained glass windows purchased in memory of loved ones. How sad it would to have these windows cracked.

Perhaps these reasons are too personal but please put yourself in our shoes.

There is also the safety issue there would be at crossings.

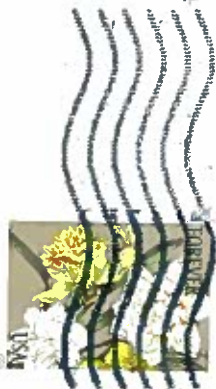

Thank you for reading this letter and please, please change your decision.

Thank you.
