Title	Business			Dept	
Address	3135 Kewanee Lane				
Address 2					
City	Naperville	State	IL	Zip	60564

Transcript:

I live in District 204 and our buses cross the railroad tracks according to Dr. Stephen Dasher, the superintendent, 164 times each day in the Montgomery Avenue tracks in Aurora, 139 times per day. If the proposed sale goes through, there will be expected increases in the number of trains traveling through and also the train length. The gate closers are anticipated to increase up to 10 minutes. This will delay the students getting to school, arriving to school and departing from school and getting home. Also, we have many young students driving at this age and hopefully none of them will be trying to beat the train across the tracks. Many students walk across these tracks and it is very unsafe. Thank you for recording this comment.
