Transcript:

I just want to make a comment on this decision. I believe that the CN Railroad is not a good thing for our community. We have already spent millions of dollars in our Park Districts to make them safe and secure and wildlife refuges that have birds, migratory birds that fly in the area, we've spent so much time and money through the years that it would be a shame if anything should ever happen. My home is also not that far away from the tracks and I'm very concerned for my family, if you go on stopcnrail.com, which is our Wayne website that we produced, you'll see a video of a tank car explosion. The tank car did explode and parts of it did fly actually 3/4 of a mile, luckily it landed in a farm field, it could easily land in my house and kill my family. I am very concerned about this. I do not believe it's a good idea and I think that the STB, the three member panel, should make a conscience choice and say no to CN Rail. It's very important to us, our family, and friends and so I'm hoping they have a conscience and do the right thing. Thank you
