Regarding Port MacKenzie Rail Extension routes - is there some reason why the existing transportation corridor surrounding the Knik Goose Bay Road has been overlooked as a possible route? This is the logical route for this project. Of the recommended routes, the least environmental impact on the critical wetlands would be realized using the mac west, conn1, Willow route. This would also have much less impact on property owners and recreational areas which are very common on the other two routes. Thank you for considering these comments.

DRAFT SCOPE OF STUDY COMMENT FORM

How Do I Submit Comments?

- **Written Comments:** Complete and submit this form at a public meeting, or mail your comments to the Surface Transportation Board's address at the bottom of this page.
- **Recorded Comments:** Provide your comments to a court reporter at a public meeting.
- **Electronic Comments:** Submit electronic comments by visiting the Surface Transportation Board's website, www.stb.dot.gov, under the heading "E-Filing"

Please refer to STB Finance Docket No. 35095 in all correspondence addressed to the Surface Transportation Board. Comment deadline is: March 21, 2008

I am opposed to the route by the proposed Conn 3 of Port Mackenzie Rail Extension projects. The spur crosses our property in the Carpenter Lake Add #1 Subdivision at the South West Corner of Carpenter Lake.

That Corner of the property has a Swamp that had breeding, loons, Arctic Terns, Eagles and other water fowl every spring and ~~the~~ the water fowl, ~~and~~ loons, ~~and~~ Arctic Terns, and Eagles raise their young thru the summer. I believe the noise levels and construction would disturb and destroy the Wildlife Habitat of protected Wildlife.

We also will be building our home there soon and the railroad thru our property is unacceptable. I am Co owner of this property with Kenneth Farmer.
