Mr. Navecky,

I just sent you a dropbox invitation as a means of re-submitting the comments and concerns detailed in a cover letter submitted to you at the April 19<sup>th</sup> Scoping meeting held at the Boone County Community Building in Belvidere, Illinois. I have check the posting of incoming documents nearly every day since the April 19<sup>th</sup> scoping meeting to verify that the comments and concerns of the Boone County Conservation District had been received and posted. I have not observed the posting of these documents on your webpage for this purpose.

I would like to ensure that you have received, and acknowledge, the cover letter and the supporting documentation presented on a thumb drive at the scoping meeting previously indicated. The BCCD also provided a two foot by three foot grid map that is part of a data set demonstrating the location of known occurrences of Illinois Species of Concern. The grid map is not available in a digital format, but I have an additional copy if you are not able to find the copy provided at the scoping meeting.

A dropbox invitation should arrive by e-mail to your attention. If you do not have dropbox on your computer, you will need to download the free app in order to receive the invitation and gain access to all of the documents. If you are unable to use dropbox, the BCCD has posted all of the documents that were submitted on its website. You can gain access to these documents by visiting the home page of the website : [www.bccdil.org](http://www.bccdil.org), and following the information under "What's New."

Thank you for your time and consideration.

Sincerely,

Daniel J. Kane, LPG  
Executive Director  
Boone County Conservation District

603 North Appleton Road  
Belvidere, Illinois 61008
