Message: STB Finance Docket No. 35087 - EJ&E Railway can NOT happen!!! I am a mother of 3

young kids and the safety and security is at risk. The inability of RESCUE VEHICLES to get through FIVE major roads to get to families in need of help!! Children AND adults will find the need to "beat" the train putting lives at risk because they know it will cause them great delays. This is right by the High School and I can not imagine how many kids that may not be thinking that they could be hurt - that they are faster than the train. The idea that goods provided by this train line are more important than lives should not even be a discussion!! I have to admit that the congestion is the one thing I thought of first and how it will debilitate our towns. But after the safety issues were brought to my attention I could not stay quiet. My children are my world and this sale will put their lives in danger. Many parents like myself may be unable to attend the meetings because of kids activities and lack of babysitting. But we want to be heard. WE NEED TO BE HEARD!! By going through with this sale, you are telling thousands of families that business is more important than the lives of our children - our residents. That is unacceptable!!
