I favor the most western route entitled "The Western Route" "Com 1" and "Mac West" due the potential dyke affect the other more easterly routes pose. There are potential water flow problems such construction would create. I am also concerned with the Coastal Mt. Fault where it is crossed by the Houston Route.

I favor the most Western Route !!

We have seen the changes in plant cover on either side of the highway where it crosses the Hog Flats and there is no where near the water flow that exists in the Big Lake & Red Shirt Lake areas.
