Transcript:

I'm in favor of the EJ&E line being extended and purchased by the Canadian company. We need more rail lines in this area, we need to get trucks off our highways, we need to be as efficient and if our government isn't willing to subsidize railroads the way they should and the way that they do in Europe, then thank goodness for a Canadian private company that's willing to come in here and try and get the railroads going again in the United States. So, I am for that railroad line going through. Thank you.
